AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims

Claims 1-14 (Cancelled)

Claims 15-18 (Cancelled)

19. (New) An apparatus including an array of pixel cells for a light valve, the apparatus comprising:

an array of pixel cells arranged in a checkerboard pattern having a first set of squares alternating with a second set of squares, such that pixel cells in the first set of squares are diagonally adjacent pixel cells in the second set of squares, diagonally adjacent pixel cells having a gap formed therebetween, the gap including a first edge defined by a pixel cell from the first set of squares and a second edge defined by a pixel cell from the second set of squares, the first and second edges being parallel;

dielectric spacer structures intervening in the gaps between the first set of squares and the second set of squares; and

structure projecting over a substantial portion of the dielectric spacer structures thereby shielding the dielectric spacer structures from incident light.

- 20. (New) The apparatus according to claim 19, and wherein the dielectric spacer structures comprise silicon oxide.
- 21. (New) The apparatus according to claim 19, and wherein the dielectric spacer structures comprise silicon nitride.

Atty Docket No.: NSC1-F4020

22. (New) The apparatus according to claim 19, and wherein the dielectric spacer structures comprise a low-k dielectric material selected from the group consisting of fluorosilicate glass, nanoporous silica, and organic polymers.

Atty Docket No.: NSC1-F4020
